

# STEWARDS OF HISTORY

The Nevada Test Site Historical Foundation (NTSHF), a Nevada non-profit corporation, was founded in 1998 to preserve an accurate history of the NTS and foster public accessibility to the history of the NTS and the nation's nuclear weapons testing program. The Foundation promotes cultural, educational, and scientific programs that encourage public discourse regarding the NTS and its contributions to the nation's defense. The Foundation operates and maintains the Atomic Testing Museum and makes accessible to the public historic artifacts, records, films, and photographs associated with the NTS.
